

Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY,  
COOPERATION AGENCY,  
Arlington, VA.

Hon. ROBERT MENENDEZ,  
Chairman, Committee on Foreign Relations,  
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 21-01. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 17-19 of April 27, 2017.

Sincerely,

HEIDI H. GRANT,  
Director.

Enclosures.

TRANSMITTAL NO. 21-01

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability (Sec. 36(b)(5)(C), AECA)

(i) Purchaser: NATO Support and Procurement Agency (NSPA).

(ii) Sec. 36(b)(1), AECA Transmittal No.: 17-19, Date: April 27, 2017; Military Department: Air Force.

Funding Source: Participants' National Funds.

(iii) Description: On April 27, 2017, Congress was notified by Congressional certification transmittal number 17-19 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of follow-on support for three (3) C-17 aircraft to include participation in the Global Reach Improvement Program, contract labor for Class I modifications and kits, in-country contractor support, alternate mission equipment, major modification and retrofit, software support, aircraft maintenance and technical support, support equipment, personnel training and training equipment, additional spare and repair parts, technical orders and publications, airworthiness certification support, engine logistics support, inspections, and other U.S. Government and contractor engineering, logistics and program support. The total estimated cost was \$300 million. There was no Major Defense Equipment (MDE) associated with this sale.

This transmittal reports the addition of non-MDE follow-on support for the C-17 fleet to include aircraft and engine hardware and software modification and support; contractor logistics support, with further participation in the Globemaster III Integrated Sustainment Program (GISP), Globemaster III Sustainment Contract (G3SC), Material Improvement Program (MIP), and Over and Above (O&A).

The total value of new non-MDE follow-on support is \$170 million. This results in a revised total non-MDE value of \$470 million. The total case value will increase to \$470 million.

(iv) Significance: This notification is provided as the additional non-MDE follow-on support was not enumerated in the original notification. The proposed articles and services will support the NATO Support and Procurement Agency to create appropriate line items to capture, execute, and easily reconcile the anticipated price increase of the upcoming C-17 sustainment contract. This program flies missions in and around Europe, Afghanistan, Iraq, the Levant, and North Africa.

(v) Justification: This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of NATO allies and partner nations that are an important force for ensuring peace and stability in Europe.

(vi) Date Report Delivered to Congress: August 3, 2021.

#### POLICY JUSTIFICATION

Greece—F-16 Sustainment Materiel and Services

The Government of Greece has requested to buy U.S. Government and contractor engineering, technical, and logistics support services for F-16 Aircraft Structural Integrity Program (ASIP), F-16 Aircrew Training Device (ATD), Low Altitude Targeting and Infrared for Night (LANTIRN), and Reconnaissance (RECCE) Pods support programs; aircraft classified and unclassified aircraft software and software support; Multifunctional Information Distribution System (MIDS) software support; Joint Mission Planning Software (JMPS) support; participation in Electronic Combat International Security Assistance Program (ECISAP), International Engine Management Program (IEMP), and technical coordination groups; other aircraft and engine hardware and software modifications and support; spare and repair/return parts and equipment; personnel training and training equipment; publications, manuals, and technical documentation; and other related elements of aircraft maintenance and program support. The total estimated value is \$270 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a NATO ally, which is an important partner for political stability and economic progress in Europe.

The proposed sale will improve Greece's capability to meet current and future threats by providing agile logistics support to its F-16 program, encompassing aspects of aircrew training and aircraft maintenance. The ability to provide this level of support to the F-16 program will increase its interoperability with NATO forces and enhance its ability to provide for security of its borders.

Greece has demonstrated a continued commitment to modernizing its military and will have no difficulty absorbing this additional sustainment support into its armed forces.

The proposed sale of these services will not alter the basic military balance in the region.

The principal contractors for this proposed sale are L3Harris International, Melbourne, Florida; Lockheed-Martin Aero Corporation, Fort Worth, Texas; Collins Aerospace, Charlotte, North Carolina; Northrop Grumman Corporation, Falls Church, Virginia; Raytheon Company, Waltham, Massachusetts; and Atec, Incorporated, Houston, Texas. The purchaser typically requests off-sets. Any offset agreement will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives outside the United States.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

#### CERTIFICATION PURSUANT TO §620C(d) OF THE FOREIGN ASSISTANCE ACT OF 1961, AS AMENDED

Pursuant to Section 620C(d) of the Foreign Assistance Act of 1961, as amended (the Act), Executive Order 12163, State Department Delegation of Authority No. 293-2, and State Department Delegation of Authority 510; I hereby certify that the furnishing to Greece of aircraft parts and support is consistent with the principles contained in Section 620C(b) of the Act.

This certification will be made part of the notification to Congress under section 36(b) of the Arms Export Control Act, as amended, regarding the proposed sale of the above-named articles and services and is based on the justification accompanying such notification, of which such justification constitutes a full explanation.

C.S. ELIOT KANG,  
Senior Official, Under  
Secretary for Arms  
Control and Inter-  
national Security.

TRANSMITTAL NO. 0N-21

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability (Sec 36(B)(5)(A), AECA)

(i) Purchaser: Government of the Netherlands.

(ii) Sec 36(b)(1), AECA Transmittal No.: 18-32; Date: September 5, 2018; Implementing Agency: Army.

(iii) Description: On September 5, 2018, Congress was notified by Congressional certification transmittal number 18-32 of the possible sale under Section 36(b)(1) of the Arms Export Control Act of Recapitalization (RECAP) of four (4) Patriot Fire Units. RECAP included Radar Sets (RS), Radar Digital Processors (RDP), Engagement Control Stations (ECS), Information and Coordination Central (ICC), Modem Man Stations (MMS), Launching Stations, and Post Deployment Build (PDB)-8 upgrades along with parts, tools, technical and engineering assistance, support services, testing, and other related elements of logistics and program support, which produce fire units at the Configuration 3+ capability. The estimated total cost was \$105 million, comprised solely of non-Major Defense Equipment (non-MDE).

On October 30, 2019, Congress was notified by Congressional certification transmittal number 1F-19 of the additional cost for new RECAP services related to the Netherlands' request for a case amendment. No MDE was added and the estimated total case value increased to \$112.3 million.

This transmittal reports the additional cost for new RECAP services related to the Netherlands' request for a case amendment. No MDE will be added and the estimated total case value will increase to \$125 million.

(iv) Significance: This proposed increase in funds will ensure continued services related to the Patriot RECAP program.

(v) Justification: This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a NATO ally which is an important force for political stability and economic progress in Europe.

(vi) Sensitivity of Technology: The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

(vii) Date Report Delivered to Congress: August 3, 2021.
